Miss Nina Francis Is Rescued by
Police and Boat
Seized.

Francis," from which the police yesterday rescued a New York young woman, who claimed she was being detained on board against her will, was seized today by United States Deputy Marshal Newhall, of Providence, and a keeper was placed on board. The action was taken at the instance of lawyers representing the tugboat company, of New York, which is alleged to have a claim of about \$2,000 against the vessel on account of repairs made on her last spring.

Her whereabouts remained unknown until today, when the story of the incident in which Miss Nina Francis, of New York, figured became public.

YOUNG MEN ARRESTED.

Burns and Parr Charged with Fighting in the Streets.

Joe Burns and Curtis C. G. Parr, two young white men, were arrested last night on a warrant charging them with fighting in the streets. The warrant for Parr is a most unusual document, as with a considerable waste of legal verbiage it charges the said Curtis C. G. Parr with fighting, etc., and with striking with a stone the said Curtis C. G. Parr. According to the warrant, the young man was arrested for striking himself in the head with a stone. The arrests were made by Policemen W. G. Tait, Parr was held by "Squire" McCarthy, and Burns was locked up at the First Police Station.

The Opium Trade.
LONDON, September 14.—The British government has consented on demand of the Chinese government to reduce the export of opium from India to China to the extent of one-tenth annually up to the year 1910, providing the Chinese government decrease the production at the same time in China, and to continue the arrangement after that date. The British have agreed to assist in an inquiry into the duty imposed by China on foreign opium, provided the tax on the foreign article shall not exceed the tax levied on the native opium.

Rain Crop Short.
NEW YORK, September 14.—Reports recently received here from California to the effect that the rain crop was maturing at a remarkably early date are not borne out by later advice from the same source, which state that unfavorable weather has retarded curing and that the first shipments will be later in getting off than was expected, though according to some reports they will be very liberal during the last half of this month.

S.S.S. DRIVES OUT RHEUMATISM

A good liniment or plaster, or some good home remedy will usually give temporary relief from the pain of Rheumatism, but the disease is more than skin deep and cannot be rubbed away, nor can it be drawn out with a plaster. Such treatment neither prevents nor cures; the excess of acid, which produces Rheumatism, is still in the blood and the disease can never be cured while the circulation remains saturated with this irritating, pain-producing uric acid poison. The trouble will shift from place to place, settling on the nerves and causing pain and inflammation at every exposure or after an attack of indigestion or other irregularity. When neglected or improperly treated, Rheumatism becomes chronic and does not depend upon climatic conditions to bring on an attack, but remains a constant, painful trouble. S. S. S. drives out Rheumatism by neutralizing and expelling the excess of acid from the blood. It purifies and invigorates the circulation so that instead of an acid-laden stream, constantly depositing uric acid in the joints, muscles, nerves and bones, the entire system is nourished and made healthy by rich, life-giving blood. Book on Rheumatism and any medical advice desired will be sent free to all who write.
